johannes-mueller-boku

Research interests

Active travel planning
Transport modelling
Urban analysis

Specialised Fields

Traffic simulation and planning
Transport choice behaviour
Digital participation
On-Demand transport and
carsharing

Acquired Funding

as lead:
3 Projects (300k C)

supporting:
8 projects (ca. 4.5m C)

References

PROF. DR. KLAUS BOGENBERGER
(klaus.bogenberger@tum.de)
Lead Chair of Traffic Engineering
and Control

DR. STEFAN SEER
(stefan.seer@ait.ac.at)
Research Field Leader at AIT
Austrian Institute of Technology

TOBIAS WENDT
(tobias.wendt@sixt.com)
Executive Director, SIXT SE

Publications

PROFESSIONAL EXPERIENCE

02/2026 –
present

BOKU University

UNIVERSITY ASSISTANT · Vienna 
Institute for Transport Studies

Topics: **Transport planning** with focus on pedestrians and cyclists, mode choice modelling

Lectures: Transport Planning for walking and Cycling, Road design

Additional Tasks:

- Supervision of **PhD, Master's, and Bachelor's theses**
- **Research funding acquisition** and **project management**
- **Publications** in scientific journals and presentations at **international conferences**

10/2023 –
12/2025

Technical University of Munich

RESEARCH GROUP LEADER · Munich 
Chair of Traffic Engineering (PROF. BOGENBERGER)

Topics: **Mode choice modeling**, agent-based traffic simulation (**MATSim**), automated **on-demand shuttles** (acceptance and accessibility), **mobility budgets**, tradable credit schemes, stress behaviour in cycling

Lectures: Urban Infrastructure Design, Autonomous Vehicles, Macroscopic Transport Simulation

Projects: MINGA (C1.7m), PRIMA (C600k), StAR (C150k)

Additional Tasks:

- Supervision of **PhD, Master's, and Bachelor's theses**
- **Research funding acquisition** and **project management**
- **Publications** in scientific journals and presentations at **international conferences**

11/2019 –
12/2025

AIT Austrian Institute of Technology GmbH

SCIENTIST · Wien 

Center for Energy, Urban Development & Mobility Transformation
Topics: **Traffic simulation**, particularly with **MATSim**: devel-

opment and calibration of a →**transport model for Vienna**, implementation of scenarios (incl. **public micro-transit shuttles**), **population synthesis** based on georeferenced structural data and forecasting, development of a planning tool for digital-analog **stakeholder participation**

Projects: including TuneOurBlock (C 150k), SimSAEV (C 150k), SHOW (C200k), DOMINO (C400k)

Additional Tasks:

- **Acquisition of research funding** for national and EU projects
- **Project and consortium leadership**
- **Publications** in scientific journals and presentations at **international conferences**

09/2016 –
08/2019

Singapore-ETH Centre

POSTDOCTORAL RESEARCHER · Singapore 
Future Cities Laboratory (FCL)

Leadership and development of the workstream *Citizen Design Science* in the Big Data Informed Urban Design and Governance project

Topics: **Citizen participation** using web-based design tools, analysis of georeferenced design proposals using machine learning, theoretical conceptualisation of **digital participation formats**

Conferences

Participation in more than 10 international conferences: i.a. TRB (Washington, D.C.), hEART (Copenhagen), IEEE ITS (Gran Canaria), UIA (Seoul), CAID IJCAI (Melbourne),

Reviews

Prestigious journals in the transport field (Nature Sustainability, Transportation Research Record, Transportation, ...)

Jury member for projects (JPI Sino-European Call, ...)

Internships

Deutsche Bahn Regio Bayern, Munich

Leisure

Scouts
Scientist For Future
Cycling
Hiking
Cooking

04/2016 –
07/2016

ETH Zurich

RESEARCH ASSOCIATE · Zurich

Chair of Information Architecture (PROF. SCHMITT)

Preparation for the position at FCL in Singapore

11/2012 –
04/2016

University of the Bundeswehr

RESEARCH ASSOCIATE · Munich

Chair of Traffic Engineering (PROF. BOGENBERGER)

Topics: **Modeling of carsharing booking data:** regression and time series analysis, environmental effects

Lectures: Decision and Optimisation Methods

Projects: WiMobil (C750k)

Additional Tasks:

- Supervision of **Master's and Bachelor's theses**

Doctoral Thesis: Statistical Explanatory and Prediction Models for Free-Floating Carsharing Systems

ETH zürich

DEGREES

2016

Doktor der Ingenieurwissenschaften

DR.-ING. · University of Federal Armed Forces Munich

grade: summa cum laude

2012

Diplom-Mathematiker

DIPL.-MATH. · Ludwig Maximilian University of Munich

grade: 1,7

STUDIES

06/2006 –
03/2012

Ludwig Maximilian University of Munich

MATHEMATICS · Munich

Minor: Applied Statistics

Focus areas: Probability theory, modeling of categorical data, spatial statistics, mathematical logic, complex analysis, financial mathematics, cryptography

Diplomarbeit: Zero-Knowledge-Proofs

PROGRAMMING AND SOFTWARE

MATSim		Python	
ArcGIS/QGIS		R	
Office		PostgreSQL	
SPSS		Java	
AutoCAD		HTML/JS	

LANGUAGES

German	C2	native	
English	C2		
French	B1		

CERTIFICATES

2025	SCRUM Product Owner
2018	Rhetoric und presentation skills
2015	ProfilLehre
